#### **SECTION 1 - FUNDAMENTAL AND DEFINITIONS**

- 1.01 Purpose and Use
- 1.01.1 The purpose of the Offshore Special Regulations (OSR) is to establish uniform minimum equipment, accommodation and training standards for monohull and multihull (excluding proa) boats racing offshore.
  - 1.01.2 The OSR do not replace, but rather supplement, the requirements of governmental authority, Classification Society certification, the Racing Rules of Sailing (RRS), Equipment Rules of Sailing(ERS), class rules and Rating Systems.
  - 1.01.3 Use of the OSR does not guarantee total safety of the boat and her crew. Particular attention is drawn to the description of OSRs for inshore racing which includes that adequate shelter and or effective rescue is available all along the course. This is not included in more onerous OSR categories.

1.02	Responsibility of Person in Charge
1.02.1	Under RRS 4 the responsibility for a boat's decision to participate in a
	race or continue racing is hers alone. The safety of a boat and her crew
	is the sole and inescapable responsibility of the Person in Charge who
	· · · · ·
	shall do his best to ensure that the boat is fully found, thoroughly
	seaworthy and manned by an experienced and appropriately trained
	crew who are physically fit to face bad weather. The person in charge
	shall also assign a person to take over his responsibilities in the event
	of his incapacitation.
1.02.2	Neither the establishment of the OSR, nor their use by Organizing Authorities, nor
	the inspection of a boat under the OSR in any way limits or reduces the complete
	and unlimited responsibility of the Person in Charge.
1.02.3	By participating in a race conducted under the OSR, the person in charge, each
1.02.5	competitor and boat owner agrees to reasonably cooperate with the organizing
	authority and World Sailing in the development of an independent incident report
	as specified in 2.02
